PROFESSIONAL SUMMARY

Azure Cloud Engineer with strong experience of working across infrastructure operations, cloud engineering, and production support environments. Skilled in Microsoft Azure, Infrastructure as Code (ARM Templates & Bicep), Azure Kubernetes Service (AKS), and automation using PowerShell & Bash. Experienced in Monitoring, Observability, and Incident Management using Azure Monitor, DataDog, and SolarWinds to maintain system reliability and SLA/SLO compliance. Microsoft Azure Administrator (AZ-104) certified with a solid foundation in Linux administration and DevOps practices. Interested in opportunities across Azure Cloud Engineering, DevOps, and Site Reliability Engineering (SRE) roles.

PROFESSIONAL EXPERIENCE

Cloud Engineer – eClinicalWorks India Pvt. Ltd.

May 2024 – Present.

- Provision and maintain Azure infrastructure including Virtual Machines, Storage, and Networking Components such as Application Gateway.
- Implement Infrastructure as Code using ARM Templates and Bicep for automated cloud provisioning. Develop PowerShell and Bash Scripts to automate infrastructure audits and day to day operational tasks.
- Manage and troubleshoot Azure Kubernetes Service (AKS) workloads including Deployments, Replica Sets, and Ingresses.
- Monitor application performance using DataDog (APM, Traces) to identify and resolve production issues along with reduction in troubleshooting time.
- Perform capacity planning (Load Balancing) and cost optimization to improve cloud resource (Right-Sizing) efficiency.

Network Operations Centre Engineer – eClinicalWorks India Pvt. Ltd.

Jan 2022 – Apr 2024.

- Using diversified tools (SolarWinds, Data Dog, Azur Portal etc) to monitor & maintain performance and capability of servers and services (Tomcat, Cognos etc) hosted on them.
- Working to triage or troubleshoot the Incidents/Outages within their defined areas (SLA/SLR) with proper documentation (RCA, RFO etc) and timelines (resolution steps).
- Tracking and documenting all the internal or external teams / vendor issues / defects and their resolutions in detail through a designated ticketing system for future references.
- Maintaining the Application uptime within SLA/SLO as well creating Monthly / Quarterly or AD-HOC Uptime Reports as per Client / Vendor Requirements.
- Escalating complicated out of scope issues to management, other IT resources, third parties and/or vendors, as appropriate.

Server Administrator & Technical Support Engineer – Kenico Solutions & Services Pvt. Ltd.

Jun 2021 – Dec 2021

- Create user accounts, troubleshoot user issues and keep an eye on data flowing in and out of the network.
- Managing VMWare and ESXi Server & Install and maintain multiple types of hardware and software on it.
- Give continuous support to the department by providing troubleshooting and tech support services like providing backup & recovery options.

TECHNICAL SKILLS

Cloud Platforms: Microsoft Azure (efficient), Basic AWS

Infrastructure as Code: ARM Templates & Bicep (efficient), Terraform (Learning)

Containers & Orchestration: Kubernetes, Azure Kubernetes Service (AKS)

Monitoring & Observability: DataDog (APM, Dashboards), SolarWinds & Azure Monitor (Alerts)

Scripting & Automation: PowerShell (Advanced), Bash (Basic)

Operating Systems: Linux (Rocky Linux, RHEL, Ubuntu), Windows Server (Intermediary).

EDUCATIONAL QUALIFICATIONS

Master of Science in Information Technology - Vidyalkar School of Information Technology, Mumbai University

2019 - 2021 | CGPA: 9.33 | 78.96%

Bachelor of Science in Information Technology - Vidyalkar School of Information Technology, Mumbai University

2016 - 2019 | CGPA: 9.02 | 75.04%

PROJECTS

Project Title (2020-21): - StudyBot: an AI Based Chatbot.

Project Objective: “To provide single accurate result as opposed to Google’s multi-sourced results and help students to prepare for their exams and also to gain knowledge.”

Project Title (2018-19): - DR.TOM: an AI Based Pet Diagnostics System.

Project Objective: “Our system is mainly targeted towards pet owners, our system is as of now only made for dog owners and is mostly for diagnostics of dog skin disorders.”

CERTIFICATIONS

- Kubernetes Monitoring (DataDog) in DEC 2025
- Microsoft Azure Administrator Associate (AZ-104) in OCT 2025
- Microsoft Applied Skills: Get started with Azure management tasks in SEP 2025
- Microsoft Azure Fundamentals (AZ-900) in JAN 2024
- Datadog Fundamentals I in DEC 2023
- IBM SRE Essentials in JUN 2023

ACHIEVEMENTS

- Recognized as STAR (Spoken Tutorial Alumni Resource) by IIT Bombay in MAR 2023.
- Passed the TCS NQT with 74.05% Marks held in FEB 2021.
- Secured 1ST Rank in Division “E” For Semester II, III, IV, V, VI.

EXTRA CURRICULAR ACTIVITIES

- Class Representative of both my B. Sc.IT & M. Sc.IT Class 2016-2021.
- General Secretary of ACM-VSIT Committee 2018-19.

PERSONAL INFORMATION

Languages English, Marathi and Hindi.

Hobbies Travelling, Watching Cricket, Planning Things and Reading Books.

Date of Birth 31st January 1998
