PROFESSIONAL SUMMARY

Azure Cloud Engineer with strong experience in cloud infrastructure operations, automation, and Kubernetes workload management. Skilled in Microsoft Azure, Infrastructure as Code (ARM Templates & Bicep), Azure Kubernetes Service (AKS), and automation using PowerShell and Bash. Experienced in monitoring, observability, and incident management using Azure Monitor, Datadog, and SolarWinds to maintain system reliability and SLA/SLO compliance. Microsoft Azure Administrator (AZ-104) certified with a solid foundation in Linux administration and DevOps practices. Seeking mid-level roles in Azure Cloud Engineering, DevOps, or Site Reliability Engineering (SRE) to build scalable & reliable cloud platforms.

TECHNICAL SKILLS

Cloud Platforms: Microsoft Azure (efficient), Basic AWS

Infrastructure as Code: ARM Templates & Bicep (efficient), Terraform (Learning)

Containers & Orchestration: Kubernetes, Azure Kubernetes Service (AKS)

Monitoring & Observability: DataDog (APM, Dashboards, Alerts), SolarWinds, Azure Monitor

Scripting & Automation: PowerShell (Advanced), Bash (Basic)

Operating Systems: Linux (Rocky Linux, RHEL, Ubuntu), Windows Server (Intermediary).

PROFESSIONAL EXPERIENCE

Cloud Engineer – eClinicalWorks India Pvt. Ltd.

May 2024 – Present.

- Provision and maintain Azure infrastructure including Virtual Machines, storage, and networking components such as Application Gateway.
- Implement Infrastructure as Code using ARM Templates and Bicep for automated cloud provisioning. Develop PowerShell and Bash scripts to automate infrastructure audits and day to day operational tasks.
- Manage and troubleshoot Azure Kubernetes Service (AKS) workloads including Deployments, ReplicaSets, and Ingress.
- Monitor application performance using DataDog APM to identify and resolve production issues along with reduction in troubleshooting time.
- Perform capacity planning (Load Balancing) and cost optimization to improve cloud resource (Right-Sizing) efficiency.

Network Operations Centre Engineer – eClinicalWorks India Pvt. Ltd.

Jan 2022 – Apr 2024.

- Using diversified tools (SolarWinds, Data Dog, Azur Portal etc) to monitor & maintain performance and capability of servers and services (Tomcat, Cognos etc) hosted on them.
- Working to triage or troubleshoot the Incidents/Outages within their defined areas (SLA/SLR) with proper documentation (RCA, RFO etc) and timelines (resolution steps).
- Tracking and documenting all the internal or external teams / vendor issues / defects and their resolutions in detail through a designated ticketing system for future references.
- Maintaining the Application uptime within SLA/SLO as well creating Monthly / Quarterly or AD-HOC Uptime Reports as per Client / Vendor Requirements.

- Escalating complicated out of scope issues to management, other IT resources, third parties and/or vendors, as appropriate.

Server Administrator & Technical Support Engineer – Kenico Solutions & Services Pvt. Ltd.

Jun 2021 – Dec 2021

- Create user accounts, troubleshoot user issues and keep an eye on data flowing in and out of the network.
- Managing VMWare and ESXi Server & Install and maintain multiple types of hardware and software on it.
- Give continuous support to the department by providing troubleshooting and tech support services like providing backup & recovery options.

EDUCATIONAL QUALIFICATIONS

2019-21	Vidyalankar School of Information Technology, Wadala, Mumbai University, Graduated in Master of Science in Information Technology.	9.33 78.96 %
2016-19	Vidyalankar School of Information Technology, Wadala, Mumbai University, Graduated in Bachelor of Science in Information Technology.	9.02 75.04 %

PROJECTS

- 2020-21 **Project Title: - StudyBot: an AI Based Chatbot.**
Project Objective: “To provide single accurate result as opposed to Google’s multi-sourced results and help students to prepare for their exams and also to gain knowledge.”
- 2018-19 **Project Title: - DR.TOM: an AI Based Pet Diagnostics System.**
Project Objective: “Our system is mainly targeted towards pet owners, our system is as of now only made for dog owners and is mostly for diagnostics of dog skin disorders.”

CERTIFICATIONS

- Microsoft Azure Administrator Associate (AZ-104)
- Microsoft Azure Fundamentals (AZ-900)
- IBM SRE Essentials
- Kubernetes Monitoring (DataDog)

ACHIEVEMENTS

- Recognized as STAR (Spoken Tutorial Alumni Resource) by IIT Bombay in MAR 2023.
- Passed the TCS NQT with 74.05% Marks held in FEB 2021.
- Secured 1ST Rank in Division “E” For Semester II, III, IV, V, VI.
- Secured 1ST Rank in Subject of “Green Computing” at Semester II.

PERSONAL INFORMATION

Languages English, Marathi and Hindi.
Hobbies Travelling, Watching Cricket, Planning Things and Reading Books.
Date of Birth 31st January 1998

I hereby declare that the information and facts stated above are true and correct to the best of my knowledge and belief.

Date: 05th March 2026.
